Pocket Sliders

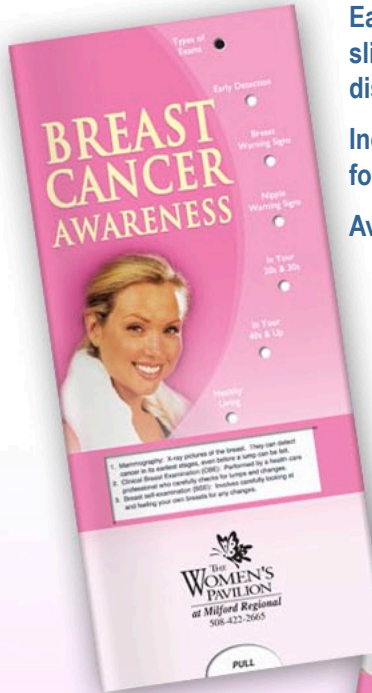

- Help Answer some of those FAQ's
- Educate and Inform Patients
- Promote Health & Well-Being

Breast Cancer Awareness

Early detection is the best protection. This pocket slider will help increase patients awareness of the disease that strikes so many women.

Include types of exams, risk factors, warning signs, tips for healthy living, mammograms and breast self-exams.

Available in both English & Spanish versions

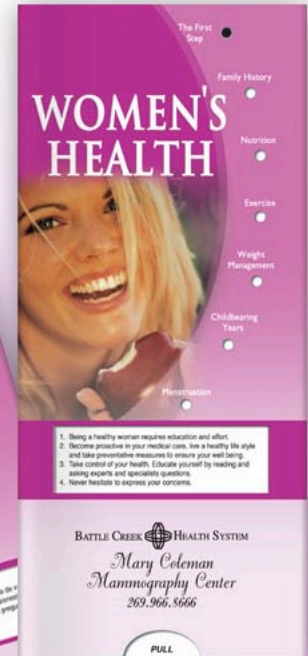

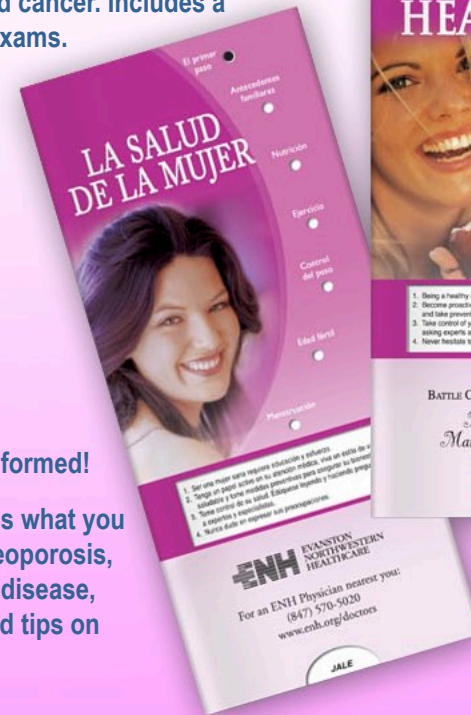

Women's Health

Women learn how to become "proactive" with their health and learn more about a healthy lifestyle with this Pocket Slider.

Features subjects such as nutrition, menstruation, cholesterol, heart disease, and cancer. Includes a detailed guide to breast self-exams.

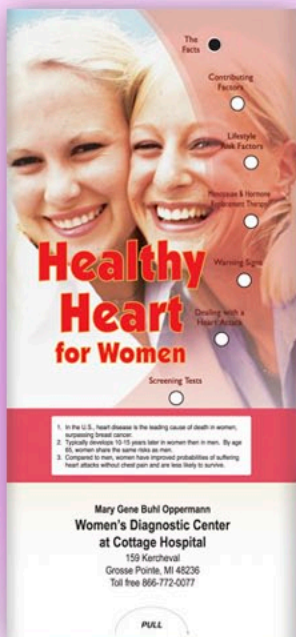

Available in both English & Spanish versions

Healthy Heart for Women

Heart disease is the leading cause of death in women. Maintaining a healthy lifestyle and a healthy heart is vital to women.

Being health conscious is now easier with this educational guide to use as a reference and to help women stay motivated.

Osteoporosis

Get your patients better informed!

This Pocket Slider includes what you can do to try to avoid Osteoporosis, common myths about the disease, symptoms, risk factors and tips on causes and detection.
